“the harvest of the entity is near, for it is only necessary to clear the red, orange and yellow, in order to arrive at the green-ray energy center. The ability to love and serve others about one, more than one loves and serves the self, for this is the positive path of which we speak,” (L/L 2016/12/17)

“the orange-ray energy center is concerned with the self, the knowledge of the self as an individual being, with various eccentricities or unique qualities that make it an individual and unique being. This basic acceptance of the self then forms the framework within which the spiritual seeker may continue its journey through the yellow-ray energy center where it joins its unique self with other selves and forms groups of various kinds of the family, the workplace, the community and so forth. This expansion of the awareness of the self and into the group can, when the entity becomes aware of the nature of the Creator relying—we correct this instrument—existing within each entity, then the green-ray energy center of unconditional love may be activated.” 2023/02/25

1 Blockages

“Now, let us look at what we said earlier, that anger is a kind of fear. In your language you use words that are approximate and we cannot find words in your language that satisfy us in speaking through this instrument to distinguish between various aspects of anger and fear. However, generally we would say that love, that original Thought that created all that there is, is of a nature that is purely expansive, moving outward and radiating in all directions

from every point. It is the great celebration that lasts to infinity. When that love pours through the vehicle—physical, emotional and mental of the entity within incarnation—that love moves into the field of the body at the base or red-ray chakra, that survival chakra, and if it is blocked there by contraction, by fear, not much energy can come through to move into higher energy centers. The same is true for each energy center.” (L/L 1996/1006)

2 Clearing Blockages

“We would recommend in the meditative state, at the end of your day or during a portion of your day where you have time to relax and reflect, that you look at the blockage as it has been experienced in your daily round of activities. Within the meditative state then look at the experience which represents to you the blockage of the red-ray energy center. Re-live that experience, allowing it to fill your being, and then in a natural fashion allow that image to dissipate and allow its opposite to emerge into your consciousness so that you see it with the same intensity that you saw the blockage to begin with. Allow this image to continue for as long as feels comfortable. Then see both the blockage and its balance as means by which the Creator may know Itself through you, and accept yourself for having both as means for the Creator to know Itself in your being. Repeat this exercise upon a daily basis for as long as is necessary for the blockage to be resolved.”(L/L 2002/0505)

3 Red Ray

“It is well, perhaps, to start with that which is the so-called lowest, that first chakra or red-energy center in which reside strong and profoundly meaningful responses to triggers concerned with survival, sexuality and territory. It is very often that issues will become caught in this very basic energy center because of this particular culture within which all of those in this circle enjoy life, and its great dependence upon or emphasis upon sexuality as being central to that root ray or red-ray energy center.” (L/L 2003/0219)

“Perhaps the most skillful expression of strong red-ray energy is the allowing of the self to rejoice in the feeling of health and life, to feel the vivid energy of the blood moving through the physical body, of the organs do-

ing their balanced working, and of the nervous system opening and relaxing and turning towards the light of the physical world or that world of entities in which the expression of light, perhaps the lamp in the window or the smile that lights up the face, can express, for the red ray is in its pure form the energy that created all things, moving in its first expression into the individual splinter of the love and the light of the one infinite Creator that is each of you.” (L/L 1996/02/18)

“that all you would have to do is the simple act of loving yourself, loving life itself, loving the experience, and loving the source, whatever it is, of negativity, and knowing that this love does all the work for you. It does all the work, and you rest in that love knowing that all is well and all will be well, letting love work out all of the answers, all of the on-flowing experiences that come next for you and for all concerned. Love is the most powerful and yet gentlest force in all creation. It is the source of creation itself. And so, go to that love, my brother, within you and stand in that presence of love, and all shall be well with you.”(L/L 2023/0325)

4 Orange Ray

“or your orange ray to be strong, with its issues of relationship of self to self and the relationships that you have with others, one on one.” (L/L 2008/01/07)

5 Yellow Ray

1981-ra-contact/015.txt:57:The third blockage resembles most closely that which you have called ego. It is the yellow-ray, or solar plexus, center. Blockages in this center will often manifest as distortions towards power manipulation and other social behaviors concerning those close and those associated with the mind/body/spirit complex.

1981ra-contact/102.txt:57:I am Ra. Each entity must, in order to completely unblock yellow ray, love all which are in relationship to it, with hope only of the other-selves’ joy, peace, and comfort.

6 Green Ray

2010/0905_01.txt:52:“Let us give the example of the man who sees all the poker hands. He then knows the game. It is but child’s play to gamble, for it is no risk. The other hands are known. The possibilities are known and the hand will be played correctly

but with no interest.“In time/space and in the true color green density, the hands of all are open to the eye. The thoughts, the feelings, the troubles, all these may be seen. There is no deception and no desire for deception. Thus much may be accomplished in harmony but the mind/body/spirit gains little polarity from this interaction.“Let us re-examine this metaphor and multiply it into the longest poker game you can imagine, a lifetime. The cards are love, dislike, limitation, unhappiness, pleasure, etc. They are dealt and re-dealt and re-dealt continuously. You may, during this incarnation begin—and we stress begin—to know your own cards. You may begin to find the love within you. You may begin to balance your pleasure, your limitations, etc. However, your only indication of other-selves’ cards is to look into the eyes.“You cannot remember your hand, their hands, perhaps even the rules of this game. This game can only be won by those who lose their cards in the melting influence of love, can only be won by those who lay their pleasures, their limitations, their all upon the table face up and say inwardly: “All, all of you players, each other-self, whatever your hand, I love you.”

This is the game: to know, to accept, to forgive, to balance, and to open the self in love. This cannot be done without the forgetting, for it would carry no weight in the life of the mind/body/spirit being-ness totality.”

6.1 Processing Catalyst

“There are very few—but it is notable enough that we mention this—who are so efficient in processing catalyst in the present moment that space begins to buckle inward under the burden of successfully approached and used catalyst. In that case, the entity who seeks will find itself in the creation in a true sense for the first time, for when time begins its full operation there is the possibility of spacelessness or the unity of all space. In this distortion lies a compassion which cannot be approached except by those few among your peoples who have used catalyst with a fervor and enthusiasm and a conscious knowledge of the probity of such an exercise.” (L/L 1985/12/29)

6.2 Love of Neighbour

2021/0623.txt:15:On worlds of greater homogeneity, where the group has moved through

their evolution as a whole and is not a patchwork of different planetary populations, it is, shall we say, or at least can be easier and more efficient to create these spaces of free and mutual giving that do not require necessarily strong control structures, that the energies may flow in free relation and free giving. That your planetary population does not share a common lineage makes it far, far more difficult to relate across various cultural matrices. Which is not to say that the work is impossible, for to transcend or rise above these control structures is also to lift the locus of awareness, at minimum, into the green-ray energy center, to make space for other selves, to approach others with curiosity, to support wherever it is they may be upon their journey, to not look upon the other self or indeed the self with judgment or blame, but rather to see, however it is they may be expressing, thinking, or feeling, as simply being a product of where they are on their evolutionary journey. And seeing that even that, if related to with love and healing, may be productive to upward evolution.

7 Ready for Harvest

“Thusly balanced, your energy centers, at some point in your incarnation, will be free to allow the energy of the One Creator to move higher and higher until the green-ray energy center is activated. As this center is activated, then the harvest of the entity is near, for it is only necessary to clear the red, orange and yellow, in order to arrive at the green-ray energy center. The ability to love and serve others about one, more than one loves and serves the self, for this is the positive path of which we speak, and we are well

aware that each within this circle of seeking is a positively oriented entity seeking to move the energies higher and higher in the positive sense. Then, if you are a doughty seeker, full of adventure, and wishing to experience more catalyst, it is possible to move higher and higher within the energy centers, until eventually the prana of the One Creator meets the intelligent infinity, the Polaris of the self, the North Star, residing within the indigo ray, and the fully experienced presence of the One Infinite Creator is possible. This is the great goal of all who seek this pearl of great price, shall we say.” (L/L 2016/12/17)

8 Blue Ray

“It has been found through many, many experiments within various third-density illusions that the journey to adepthood is best accomplished by those entities of the mated relationship, for in such a relationship the universe in wholeness is made available to each as each refines the red-ray energy which began the relationship. The key ingredient in this journey is the honesty of the sharing of self with other self, for it is necessary in your illusion that perception be as clear as possible in order for catalyst to be utilized as efficiently as possible. You live within an illusion in which perception is most difficult upon a level of clarity which speeds your evolution. It is therefore necessary that the highest degree of clarity be sought and be utilized by each entity. If the relationships were, for example, of a serial nature it would be much more difficult for the trust to build the foundation of honesty, for it takes what you call time for that trust to develop.” (L/L 1983/0828)
